Comments: People are on pensions and still working that live here. Why are they trying to raise and almost quadruple the rates? This is why people who are retired moved out here, because it was affordable at the time and now they are trying to make it unaffordable. The homeowners that have property and vacation homes that aren't using the water and sewer in the off season and still pay these enormous flat rates? Right now we are paying approximately \$12.25/month and the rates that they are proposing are \$41.30/month. This is ridiculous for them to try to get an increase!!! This will also stop new growth in Grenehaven and lower our property values more.
